On January 11th 2022, a Workshop And Lecture series on- Statistics For Econometrics, was conducted by the Department of Economics. The resource person for the day was **-Dr. K. K. Jose, Hon. Director School of Mathematics and Statistics MG University Kottayam**. The workshop was attended by all the postgraduate students and final year undergraduate students of the department. It covered topics including probability distribution, estimation and hypothesis testing. The properties of Discrete and continuous distribution, methods of estimation, Parametric and non-parametric hypothesis testing were discussed in the workshop. The class was assisted using power points. He also discussed certain softwares like R and Gretl that are helpful in doing the statistical and econometric programmes. Statistical methods involved in carrying out a study include planning, designing, collecting data, analysing, drawing meaningful interpretation and reporting of the research findings. The statistical analysis gives meaning to the meaningless numbers, thereby breathing life into a lifeless data. All the postgraduate students and the final year students of the undergraduate economics participated in the lecture.
